Community Engagement Studios (CES)  
Special Opportunity for CES Training

Sponsored by:  
Vanderbilt University Institute for Clinical and Translational Research (VICTR)  
NCATS Recruitment Innovation Center (RIC)  
UC Irvine Institute for Clinical and Translational Science (ICTS)

Date: May 9 – 10, 2018 (1.5 days)  
Location: University of California, Irvine  
Registration deadline: Wednesday, April 25, 2018

Enrollment is limited to 20 trainees

Community Engagement Studios (CES) are consultative sessions for researchers interested in getting input on their work from key stakeholders, such as patients, caregivers, health care providers, community members, and other non-researchers. A panel of stakeholders (whose characteristics are defined by the researcher) is assembled to provide feedback to enhance the planning, design, implementation, translation, or dissemination of the research.

The trainings are geared toward Community Engagement Managers/Directors at CTSA sites, academic researchers, clinical research coordinators, community researchers, and others for the purposes of teaching local community engagement teams to organize and conduct CES, and to standardize training methodology.
